

25th Eastern Black Bear Workshop

April 24th – 27th, 2023

Trego, Wisconsin

The Wisconsin Department of Natural Resources is proud to host the 25th Eastern Black Bear Workshop from April 24 – 27, 2023 at Heartwood Resort in Trego, Wisconsin: <https://www.heartwoodresort.com/>.

The purpose of the Eastern Black Bear Workshop (EBBW) is to bring together state/provincial biologists, federal biologists, and university researchers with responsibilities for managing black bear populations in the eastern USA and Canada to discuss issues important to the management, conservation, and perpetuation of those black bear populations. EBBWs are inherently different from general conferences. Whereas conferences have the purpose of sharing information through the presentation of research and management papers, EBBWs are designed not only to share information, but more specifically to discuss and find solutions to problems of managing bear populations at the regional level.

Details coming soon! Visit www.easternblackbearworkshop.org in the coming weeks for more information on lodging, registration, agenda items, and presentation submissions. If you have any questions, contact: Sara Fischer Sara.Fischer@wisconsin.gov or 715-459-8365.
